

# Maine H1N1 Influenza (“Swine Flu”) Update

Data Summary for Monday, June 15, 2009, 3 PM

**Flu info on the Internet:** <http://www.maine.gov/dhhs/boh/swine-flu-2009.shtml>

**\*2 new cases reported\***

## Current H1N1 related events:

- Age distribution of cases suggest that H1N1 influenza is not just affecting youth in Maine, but is also affecting adults over 25

## Maine CDC and Department of Education partner to offer seasonal influenza vaccine in the fall

- Maine CDC and the Department of Education partner to offer seasonal influenza vaccine to children through interested local schools this fall. For more information on how you can become involved, check the June 11 health advisory on this subject at: <http://www.maine.gov/tools/whatsnew/attach.php?id=74633&an=1>

## New Cases:

- Two new H1N1 cases were confirmed among Maine residents today, an adult from Penobscot County and an adult from Sagadahoc County.
- Although case counts are reported here, it is important to note that individual case data are useful only in that they are markers of the presence of H1N1 in a given county or geographical area. Many people with H1N1 are not tested, and their illness is not reflected in the case counts. Counties or regions with no reported cases may still be affected.

## Current Case counts:

Case Counts	Confirmed	Probable
Maine	37	0
Out of State	9	0

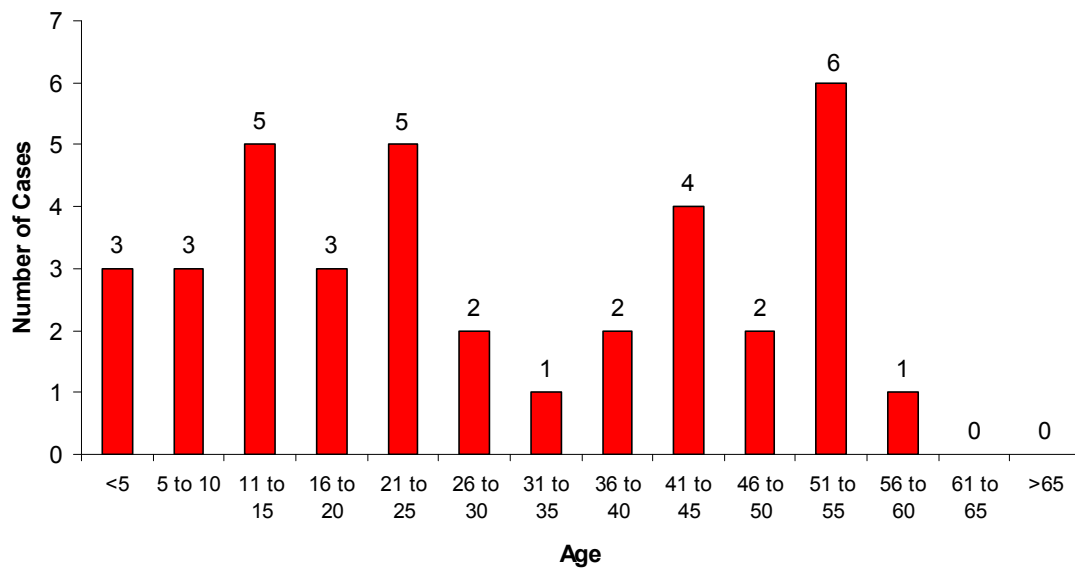

- A total of 37 Maine residents have been diagnosed with H1N1. In addition, 9 out of state residents were diagnosed while visiting Maine, for a total of 46 diagnoses in the state.

## Confirmed Cases by County:

County List	New Cases	Total Cases	Out of State*
Androscoggin			
Aroostook			
Cumberland		18	1
Franklin			
Hancock			1
